Class 9

Electronic security apparatus and surveillance apparatus, namely, computer hardware, computer chips and microprocessors optimized for electronic security surveillance; algorithm software programs for the operation and control of computers; computer operating system software; computer operating systems; computer system extensions, tools and utilities in the field of application software for connecting personal computers, networks, telecommunications apparatus and global computer network applications; computerized telecommunications and networking equipment consisting of operating system software; computer hardware and software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of audio and video graphics information; computer firmware, namely, computer operating system software, computer utility software and other computer software used to maintain and operate computer systems; computers; handheld computers; minicomputers; computer installations; memory boards; personal digital assistants; portable and handheld electronic personal organizers; computer hardware; integrated circuits; integrated circuit memories; integrated circuit chips; computer chip sets; semiconductor processors; semiconductor processor chips; semiconductor chips; microprocessors; printed circuit boards; electronic circuit boards; computer motherboards; computer memories; operating systems; microcontrollers; data processors; central processing units; semiconductor memory devices, namely, semiconductor memories and semiconductor memory units; software programmable processors; digital and optical microprocessors; computer peripherals; video circuit boards; audio circuit boards; audio-video circuit boards; video graphic accelerators; multimedia accelerators; video

processors; videoprocessor boards; data memories; storage devices, namely, jump drives, flash drives and thumb drives; security systems for computer hardware and software, namely, firewalls, network access server hardware for creating and maintaining firewalls, virtual private network (vpn) computer hardware and computer server operating software for creating and maintaining firewalls; software for ensuring the security of computer networks; software for access control and security; computer hardware and software for use in protecting computer networks from data theft or damage by unauthorized users; components for computers; printed circuits, namely integrated circuit boards, printed circuit boards and electrical circuit boards; computer voice accelerator boards; computer voice, data, image and video accelerator boards; flash memory boards and flash memory cards; telecommunications equipment and computer networks, namely processing and operating systems; telecommunications apparatus and instruments, namely, computer routers, hubs, servers and switches; computer hardware and software for the development, maintenance, and use of local and wide area computer networks; set-top boxes; electronic control devices for the interface and control of computers and global computer and telecommunications networks with television and cable broadcasts and equipment; apparatus for testing and programming integrated circuits; computer peripheral memory apparatus and devices; fixed function computer servers; computer networking hardware; computer hardware and software for creating, facilitating, and managing remote access to and communication with local area networks (lans), virtual private networks (vpn), wide area networks (wans) and global computer networks; router, switch, hub and server operating software; computer software and hardware for use in providing multiple user access to a global computer information network for searching, retrieving, transferring, manipulating and disseminating a wide range of information; computer software tools for the facilitation of third party software applications; computer hardware and software for wireless network communications; downloadable electronic publications in the nature of newsletters, books, magazines, journals, brochures and white papers in the area of electronics, semiconductors, integrated electronic apparatus and devices, computers, telecommunications, entertainment, telephony, and wired and wireless telecommunications; structural parts and fittings for all the aforesaid goods; instructional manuals sold as a unit with the aforementioned goods and electronic instructional manuals downloadable from a global computer network

#### Class 41

Training services in the fields of networks, network system design, network operation, network maintenance, network testing, network protocols, network management, network engineering, computers, software, microprocessors and information technology; entertainment services, namely, organizing exhibitions for computer gaming, providing on-line computer games, and organizing community sporting and cultural events; providing on-line publications in the nature of magazines, newsletters, journals, books and

brochures in the areas of photography, imaging and related goods and services; education services, namely, providing seminars, courses and tutorial sessions in the field of digital imaging via global computer networks; providing a database of digital images on-line for use by consumers; providing an on-line library of digital images which may be shared by users; photographic and image library services; computerized on-line education services, namely, providing classes, seminars, tutorial sessions, conferences and workshops in the field of computers, computer hardware, microprocessors, software and computer networks; computerized on-line training services in the field of computers, computer hardware, microprocessors, software and computer networks; educational services, namely, providing interactive tutorial sessions and courses in the nature of how-to guides, tips and techniques, expert guidance and advice, all relating to the purchase, use, care, maintenance, support, upgrading, updating and configuring of computer hardware, computer software, computer networks, teleconferencing and communications goods and services; educational services, namely, conducting classes, seminars, conferences and online educational forums in the field of computer and software use, navigation over global computer networks, computer science and technology, computer management, and distributing course materials in connection therewith; developing and disseminating educational materials designed to increase technology literacy among students; training services for network hardware and software; training services in the field of online business solutions

#### Class 42

Computer network management services, namely, monitoring of network systems for technical purposes; hosting of digital content on the internet; computer network monitoring services, namely, providing information on the operation of computer networks; customization of web software, and computer user interface design for others; consulting services in the field of computers and wireless computing; providing temporary use of non-downloadable software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of audio and video graphics information; providing temporary use of non-downloadable software for processing, storage, retrieval, transmission, display, input, output, compressing, decompressing, modifying, broadcasting and printout of data; providing temporary use of non-downloadable software for ensuring the security of computer networks, for access control and security, and for use in protecting computer networks from data theft or damage by unauthorized users; providing temporary use of non-downloadable software for the development, maintenance, and use of local and wide area computer networks; providing temporary use of non-downloadable software for the receipt, display, and use of broadcast video, audio, and digital data signals; providing temporary use of non-downloadable software for creating, facilitating, and managing remote access to and communication with local area networks (lans), virtual private networks (vpn), wide area networks (wans) and global computer networks; providing temporary use of non-

downloadable software for use in providing multiple user access to a global computer information network for searching, retrieving, transferring, manipulating and disseminating a wide range of information; providing temporary use of non-downloadable software tools for the facilitation of third party software applications; providing temporary use of non-downloadable software for wireless network communications; custom computer software and hardware development, design, and consulting services; designing and developing standards for others in the design and implementation of computer software, computer hardware and telecommunications equipment; providing customers and technicians with information relating to computer project management.

Any person may within two (2) months from the date of the first publication of this advertisement in the *Dominica Official Gazette*, file a notice of opposition in Form 3 at the Companies and Intellectual Property Office, Dominica, of the opposition to the registration of the said trademark.
