

Journal of Intellectual Property

Companies and Intellectual Property Office Dominica

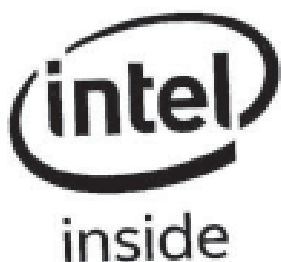

VOL. 6

ROSEAU, THURSDAY, DECEMBER 10, 2015

No. 8

Applications for Trademark Registration

INTEL CORPORATION of 2200 MISSION COLLEGE BOULEVARD, SANTA CLARA, CALIFORNIA, 95052-8119, U.S.A. has applied through their agent ALICK C. LAWRENCE, NANCY WHITICKER HOUSE, 7 OLD STREET, ROSEAU, COMMONWEALTH OF DOMINICA to the Companies and Intellectual Property Office for the registration of one Trade Mark consisting of the following word and device based on an application received on the 11th November, 2014

Classes 9, 10, 14 & 25 that is to say:

Class 9: Electronic monitoring apparatus and software comprised of digital electronic bio-sensors, electronic monitors, and computers not for medical use; data processing devices for personal wear, namely, monitors, sensors, and wearable computing devices to measure, monitor, record, and transmit physiological and biometric data such as heart rate, pulse, body temperature, perspiration, blood pressure, sleep patterns, time, distance, pace, calories burned, and other fitness measurements; wireless computing devices that transfer data to computers, personal digital assistants, smart

phones, software applications and user interfaces through internet websites and other computer and electronic communication networks; smartphones; cell phones; personal digital assistants; computers; electronic tablets; computer and network servers; data processing equipment; data centers; wireless communication devices; local area network (LAN) and wide area network (WAN) hardware and operating software; software applications for computers, smartphones and tablets; semiconductors; integrated circuits; microprocessors; computer hardware; computer and telecommunications hardware and software; network interface cards (NICs); computer firmware; computer chipsets; computer motherboards; computer graphics chips; computer graphics boards; graphic cards; apparatus for recording, transmission, or reproduction of sound or images; devices, platforms and software used with or for cloud computing and cloud connected devices; electronic charging devices; wireless electronic charging devices for accessories; computer anti-virus software and hardware; helmets.

Class 10: Sensors, monitoring components and devices for gathering biometric and physiological data; pulse meters; heart and sleep monitors; blood pressure monitors; fitness measuring instruments and devices; monitors, sensors, and wearable computing devices to measure, monitor, record, and transmit physiological and biometric data such as heart rate, pulse, body temperature, perspiration, blood pressure, sleep patterns, time, distance, pace, calories burned, and other fitness measurements; monitoring and sensing hardware and

software for wearable computing devices that measure, monitor, record and transmit physiological and biometric data such as heart rate, pulse, body temperature, perspiration, blood pressure, sleep patterns, time, distance, pace, calories burned, and other fitness measurements; wearable computing devices to measure biometric and physiological data.

Class 14: Jewelry, watches, bracelets, rings, precious metals, stones, and gemstones that incorporate functions for monitoring and reporting fitness and activity data, such as heart rate, pulse, temperature, perspiration, time, distance, pace, calories burned, and sleep patterns, as well as cumulative activity information; watches and bracelets that collect, store, transfer and communicate data to computers, personal digital assistants, smart phones, and software applications and interfaces through internet websites and computer and electronic communication networks.

Class 25: Clothing, namely, shirts, sweaters, sweatshirts, tops, pants, shorts, swim suits, shoes, socks, pajamas, undergarments, infantwear, hats, gloves, and scarves; Clothing, namely, shirts, sweaters, sweatshirts, tops, pants, shorts, swim suits, shoes, socks, pajamas, undergarments, infantwear, hats, gloves, and scarves all incorporating functions for monitoring and reporting fitness and activity data, such as heart rate, pulse, temperature, perspiration, time, distance, pace, calories burned, and sleep patterns, as well as cumulative activity information.

Any person may within two (2) months from the date of the first publication of this advertisement in the Intellectual Property Journal, file a notice of opposition in Form 3 at the Companies and Intellectual Property Office, of the opposition to the registration of the said trademark.

PANASONIC CORPORATION, of 1006, OAZA KADOMA, KADOMA-SHI, OSAKA 571-8501, JAPAN has applied through their agent DUNCAN G. STOWE & Co., P. O. BOX 1786, 58 RIVER BANK, ROSEAU, COMMONWEALTH OF DOMINICA to the Companies and Intellectual Property Office for the registration of one Trade Mark consisting of the following word and device based on an application received on the 19th September, 2013

Classes 7, 9 & 11 that is to say:

Class 7: Motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-

operated; incubators for eggs; automatic vending machines; welding machines; industrial robots; robots for use in life-support; soldering machines; chip mounting machines; semiconductor manufacturing apparatus and machines; plasma washing machines and apparatus; electric arc welding machines and apparatus; metal cutting machines and apparatus by use of arc, gas or plasma; carbon rods for welding use; welding electrodes; electronic component placement machines and apparatus; electronic component insertion machines and apparatus; soldering paste printing machines and apparatus; micro soldering machines and apparatus; adhesive dispensing machines for electronic component placement and apparatus; electronic component feeding machines and apparatus; die bonding machines and apparatus; flip chip bonding machines and apparatus; machines and apparatus for assembling flat panel displays; dry etching machines and apparatus; laser processing machines and apparatus; CO2 laser oscillators for soldering, jointing and processing; static electricity eliminators for use in production lines; laser engraving machines; condensing installations; ultraviolet curing machines; electric power tools; electrically operated tools for crimping cables; fittings and attachments to the head of electric power tools; tool bits, drill sockets and drill tips for electric power tools; chucks for electric screwdrivers; blades for electric cutters; grinding machines; saws for metal and/or wood [machines]; blades for electric power tools; electrically-operated circular saws; electrically operated reciprocating saws; blades for electrically operated cutting machines, tools and apparatus; adjusters for adjusting head attachments of electric power tools; carrying cases for electric power tools; tool belts for holding electric power tools; sealing guns (sealant injecting machines); heat exchanger units [machine parts]; machines for extracting medicine from injectors; medicine mixing machines; medicine dispensing machines; medicine inspection machines; apparatus and machines for printing newspapers under computer to plate method; electric motors [other than for land vehicles]; fans for motors and engines; servomotors; driving motors other than for land vehicles; electricity generators; wind-powered electricity generators; AC generators [alternators] other than for land vehicles; installations for home generation of electricity; centrifugal blowers [machines]; axial flow blowers [machines]; reduction gears [other than for land vehicles]; elevators [lifts]; machines for lifting wall cabinets; lifting apparatus for lightings; electric door openers; automatic door apparatus (electric); car parking installations, namely lifts for parking cars and storing them for parking purpose; washing machines; tubs as structural parts of washing machines; dish washing machines; drums [parts of machines]; denture cleaners [apparatus]; compressors [machines]; pumps [machines]; electric pumps; well pumps; electric water pumps for washing machines; mixing, cutting and chopping machines; electric chopping, mixing and cutting machines, for food; electric hand mixers for household purposes; electric food processors for household use; electric coffee mills; electric juice extractors for household use; electric blenders for household purposes; electric juicers for household purposes; apparatus for making soft serve ice cream; elec-

tric meat grinders for household purposes; electric tea leaf grinders; rice milling machines for household use; electric ice crushers; electric waste processors (not for sanitary purposes); electric garbage disposals; machines and apparatus for cleaning, electric; electric vacuum cleaners; electric floor polishers; dust collecting machines for industrial use; electric cleaners for clothing; electric lint removers; blowing machines; air suction machines; dust filters and bags for vacuum cleaners; electric cleaners for pets; chutes (being parts of machines) incorporating electronically-operated ventilator for kitchen; electric dust collecting machines; electric body brushes [parts of machines]; electric brushes for pet grooming [parts of machines]; water aeration system for treatment of sewage comprising water pumps, air compressors and air blowers; electric packing machines.

Class 9: Scientific, nautical, surveying, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; cameras; cases for cameras; electric flash lights for cameras; digital still cameras; mount adapter for digital cameras; Multi-coating protector for digital cameras; filter for digital camera; lens cap for digital camera; body cap for digital cameras; viewfinder for digital cameras; microphones for use with digital cameras; shutter remote control for digital cameras; tripod adapter for digital cameras; zoom lever assist for digital cameras; camera bag for digital cameras; camera case for digital cameras; silicon jacket for digital cameras; body case for digital cameras; strap for digital camera; waterproof case for using digital cameras in water; coupler for digital cameras; AC adapter for digital camera; digital photo frame; batteries and cells; dry cells; rechargeable batteries; storage batteries; storage batteries for electric motorcycles; storage batteries for electric cars; cellular phone batteries; battery chargers; nickel cadmium batteries; nickel hydrogen batteries; lithium batteries; lithium ion batteries; fuel cells; solar batteries; solar power generating apparatus; solar cell modules for electricity generation; converter of solar electricity; solar panels for electricity generation; apparatus for charging electric vehicle and plug-in hybrid electric vehicles; dry batteries incorporating carbon in a rod form; wiring apparatus; electric wiring devices with sensors; electrical connectors; switches; electric sockets; dimmer switches; time switches; automatic switching appliance; magnetic switches; photo-electric switches; electrical switches; detection switches; operating switches; dimmer control (dimmer function switches); card operated switches; parts for switches; switchboards; switch boxes; electrical conduits of metal; electricity conduits; flexible electrical conduits; floor ducts for housing electric cables; cable racks (electrical wires and cable laying materials); factory automation

ducts (factory use power distribution ducts); ballasts for lighting; circuit breakers; magnetic contactors and starters; circuit protectors; thermal protectors; earth leakage circuit breakers; power distributing boxes [electricity]; electrical outlets; fixing frames for electric outlets; taps [electricity]; popup type electric floor outlets; electric floor outlets; Full floor wiring system contained in floor panels (electricity conduits); under carpet wiring installations; plugs (electrical); current converters; socket plates for covering socket outlet; antennas; aerials; distribution board cabinets capable of storing IT equipment; power control panels; electronic panels indicating attendance/non-attendance of office workers; terminals for television; pilot lamps; Apparatus attached to walls for guiding telephone wires through holes; plug-in phone jacks; trolley ducts; electrical adaptors; earth terminals; electric extension cords; modular jacks (connection for in-house LAN); protective covers for exposed wirings; Electricity conduits for use outside premises (such as houses); warning apparatus and instruments; Television monitoring apparatus for use in video intercom systems; intercoms; gas leakage alarms; anti-theft warning apparatus; glass breakage detectors (anti-theft warning apparatus); thermic ray detectors (human body warmth detectors alarms/burglar alarms); infrared detectors (infrared transparence block detectors/burglar alarms; electric door chimes; radio receiving/transmitting devices for fire alarms; buzzers; fire alarms; fire control panels; fire detectors; fire alarm bells (sound equipment); Interactive fire control panel (smoke prevention equipment); emergency alarm equipment; automated emergency notification equipment (notification equipment for fire alarms and intrusion); electric locks; video monitoring systems (access control equipment/intrusion detection equipment); imaging sensors (person identification alarm equipment); security key boxes (key storage control alarm interactive system); face recognition equipment for access controls (access control equipment); iris recognition access control systems consisting of cameras and management servers; cameras with an iris recognition function; surveillance cameras; closed circuit video equipment systems comprised of security camera & lens, analog or digital recorders, monitors, video servers, matrix switches and control systems, housing and mount brackets, fibre optics; electric and electronic video surveillance installations; communication and surveillance systems for apartments and condominium buildings; emergency exit sign, luminous; apparatus and instruments for remote monitoring, remote communication and/or remote controlling; radios; cassette tape players/recorders; radio cassette recorders/players; portable cassette tape players/recorders; portable radio cassette players/recorders; Integrated circuit memory and/or hard disc players/recorders; radio/compact disc players; portable audio players; MP3 (MPEG-1 Audio Layer-3) players; cases for portable audio players; speakers (audio equipment); stereo tuners; amplifiers; power amplifiers; power amplifiers for automotive audio system; microphones; slip mats for turntable for record players; IC recorders (voice recorders); digital sound processors; headphones; cordless headphones; earphones; stereo components mainly consisting of stereo loudspeakers, audio recorders and players, and

stereo tuners; audio mixers; Cleaning discs for lenses in audio/visual apparatus; optical fiber cables; audio cables/video cables; wireless microphone system consisting of wireless microphones, wireless transmitters, wireless powered speaker, wireless receivers, wireless amplifiers, diversity tuners; digital multi equalizers; digital multi processors; car audio apparatus; audio-visual equipment for automotive audio-visual systems including radios, DVD players, CD players, televisions, displays, monitors for rear-view camera systems; speakers for automotive audio systems; subwoofers for automotive audio-visual systems; cassette adaptors for use with portable audio players; audio cables for use with DVD/CD changer; audio visual machines, apparatus and instruments; television receivers; plasma television receivers; plasma display panels; stands for plasma display panels or plasma television receivers; wall mount bracket for plasma display panels or plasma television receivers; LCD television receivers; liquid crystal displays; liquid crystal displays for use with medical and/or beauty care apparatus; liquid crystal display panels; LCD video monitors; wireless liquid crystal displays; organic light-emitting displays; 3D (three dimensional) television apparatus; combined television receivers incorporating disc/video tape players; video tuners; LCD (liquid crystal display) projectors; lenses for LCD (liquid crystal display) projectors; ceiling mount brackets for LCD (liquid crystal display) projectors; lamps for LCD (liquid crystal display) projectors; digital light processing projectors; lenses for video projectors; video cassette recorders; video cassette players; camcorders; cables for camcorders; cases for camcorders; electric viewfinders for camcorders; waterproof covers for camcorders; AC (alternating current) adapters for camcorders; batteries for camcorders; shoulder straps for camcorders; filter for video cameras; shoe adapter for video cameras; Direct Current Light (accessory for video cameras); shoulder belt for video cameras; soft bag for video camera; microphones for use with video cameras; cassette adapter for video camera; tripod for camera; digital HD (high definition) video cassette tape recorders; digital HD (high definition) video cassette tape players; DVD video recorders; DVD video players; digital video cassette recorders; digital video cassette players; digital video cassette camera recorders; all-in one DVD video cassette recorders; all-in one DVD video cassette players; video display terminals; colour image large-scale display apparatus; cable television systems comprising set-top boxes; Community antenna television digital set top boxes; audio-visual teaching apparatus; electric optical display boards; multipurpose electric information display systems comprised of displays, projectors, media players, site controllers; camcorders for professional use, video recorders for professional use; DVD authoring systems; light emitting diode displays; On-board vehicle camera for security purposes; wireless camera (electric); wireless camera monitoring apparatus (electric); video signal converters for network cameras; network camera controllers; servers for network cameras; outdoor wireless camera monitoring apparatus with motion sensors and lights; switching device for live image production; real time graphic processors; digital audio-visual mixers; carrying handles for

projectors; electronic publication [downloadable]; table racks for televisions; digital photograph players to be connected with television apparatus; video monitors; video switcher; video mixer; home theatre system; antennas for television receivers; video splitter; image recognition apparatus; three-dimensional eyeglasses; satellite receivers; optical disc machines and apparatus; optical disc drives; optical disc recorders; optical disc players; optical disc changers; optical disc cartridges; optical disc players/recorders/drives and parts thereof; lens cleaning discs for optical disc players; optical pickups; telecommunication machines and apparatus; facsimile transceivers; telephones; cellular phones; smart phones; accessories for cellular phones, namely battery packs, cases, chargers, holders, power supply adapters, headsets, earphones and microphones; hands free kits for mobile-phones; Internet protocol telephones; cordless telephones; conference speakerphones; wireless speakerphones; telephone answering machines; private automatic branch switching systems; global positioning system receivers; radio telephones; multi-channel access radio systems; electric display boards for displaying traffic information; apparatus for video teleconferencing; apparatus for local area network; encoding and decoding apparatus; navigation equipment for cars; hand held navigation apparatus for assistance of travels; protection films for use on screens of navigation apparatus; remote controllers for navigation apparatus; stands for navigation apparatus; cables for navigation apparatus; electronic toll collecting units for cars; visual/information distribution systems comprising management servers, operating terminals, controllers; digital broadcasting systems which consists of video cameras for digital broadcast and switchers, multimedia learning systems consisting personal computers, recorders, and software; emergency call remote controllers; ON/OFF remote controllers; remote controllers for audio/visual machines; remote controllers for air conditioners; remote lighting control systems; receivers for wireless shutter open/close remote controllers (electrical automatic door open/close systems); transmitters for wireless shutter open/close remote controllers (electrical automatic door/close systems); remote controller transmitters/receivers; power supply adapters for use with portable electronic devices; road and traffic information receivers; Computer hardware and software for use in governmental crisis management system; apparatus for use in search of lost pets with radio transmitters/receivers; power distribution or control machines and apparatus; remote controls for lighting appliances; liquid level controllers [electric or electronic]; circuit controllers; power controllers; frequency controllers; remote control panels for lighting appliances; control panels for lifting device; lighting control panels; emergency broadcasting apparatus; sequencers (programmable logic controllers); computers; computer peripheral devices; tablet computers; mobile computers; hard disc drives; USB cables; internal cooling fans for computers; gateway apparatus for computer broadband network; image scanners; printers for computers; toner cartridges [empty] for computer printers; toner cartridges [empty]; photo printers; video printers; plain paper copiers; automatic document feeders for office use; multi-function printers,

namely, those which can be used as a printer, a scanner and a facsimile machine in one unit having network connectability; multi-function printers; finishers for multi-function printers; paper feeding stands for multi-function printers; paper transporting units for multi-function printers; hard disk drive units for multi-function printers; memory boards for multi-function printers; printed page counting software for multi-function printers; digitised document distribution (to pc/mobiles) software for multi-function printers; waste containers for toners for multi-function printers; verification (sent/received) stamps for multi-function printers; control panels for multi-function printers; G3 communication units for multi-function printers; Internet facsimile units via LAN network for multi-function printers; paper cassette units for multi-function printers; catch trays for multi-function printers; voice mail apparatus for multi-function printers; Radio Frequency Identification (RFID) reader/writer for multi-function printers; LAN boards for multi-function printers; extension cassette for multi-function printers; handset units for multi-function printers; electronic blackboards; electronic whiteboards; PC cards; computer keyboards; floppy disk drives; card readers; card readers/writers; bar code readers; bar code scanners; portable data terminals; electronic cash register; terminal for POS (point of sales) systems; electronic calculators; network cameras; Computer network routers; monitors [computer hardware]; wireless LAN adapter; ethernet adapters; Secure digital memory data copying apparatus; network disk recorders; memory card camera recorders; memory card recorders; memory card drives; video encoder cards; port replicators; optical disc cartridges; electronic map [downloadable]; downloadable image files and moving pictures; downloadable electronic data files for computer programs; pre-recorded DVDs; computer software; computer programs for electronic map; computer programs [downloadable software]; software for programmable controllers for use in production lines; software for processing images and graphics; OCR (optical character recognition) software; OCR development software; computer software for use with medical and/or beauty care apparatus; systems for paging outpatients in hospital facilities; electronic devices for assisting communication of persons with disabilities; apparatus for remote monitoring of patients; computers for use in hospitals and clinics for management of medical affairs; electronic health record systems; computer systems for management and review of a patient medicinal records; cell processing work station (CPWS); Video surveillance systems for factory use; Electronic systems for long storage and backup of surveillance images for security purposes; Electronic systems for management of enterprise data; Electronic systems for management of web contents; Electronic systems for documents management; Electronic office administration systems; Electronic security system for the management of identification/personnel data, authentication of identity of users of office machines and computers, and issuance of identity cards; database accelerator; full-text search engine software; remote access controlling systems relating to corporate computer network; disaster prevention wireless communication systems; Electronic news-

paper distribution systems; data broadcast and electric program guide systems; digital audio broadcast system for in-building; Orthogonal frequency division multiplexing (OFDM) modulators for In-building; electronic toll collection systems; traffic control systems; dam management systems; multimedia tablet computers; computer systems for use in health insurance pharmacy; computer networks; computer servers; external data storage media; blank video cassette tapes; head cleaning tapes for tape drives of audio and video tape recorders and players; Blank digital video home system (D- VHS) video cassette tapes; blank digital video cassette tapes; blank audio cassette tapes; blank floppy discs; blank optical discs; IC memory cards; Secure digital (SD) memory card; thermoluminescence dosimetry devices; dosimeters equipped with alarms; counters; ammeters; power consumption meters; thermometer, not for medical purposes; voltmeters; distortion meters; electric weighing scales that also measure body fat; weighing machines/scales; pedometers; apparatus for measuring calories burned during exercise; apparatus for measuring exercise intensity; hour meters; electricity testing and measuring instruments (power measuring equipment); integrating watt meters; multi-circuit type electric power monitors; gas meters; ultrasonic gas meters; water meters; Wattsmeters; apparatus for measuring the numbers of bacteria in oral cavity; distant measuring apparatus; sensors (electronic parts); automatic sensing devices comprising lights; light emitting diodes; light emitting diodes chips; light emitting diodes packages; light emitting diode modules; light-emitting modules; Large scale integration circuit (LSI); hybrid integrated circuit (IC); microcomputers; halftone image processors; semi-conductors; semiconductor memory devices; integrated circuits; semiconductor lasers; connectors [electricity]; electric/electronic display instruments; Charged-coupled device (CCD) image sensors; Metal-oxide semiconductor (MOS) image sensors; film capacitors; membrane units to be installed in air charging apparatus and air conditioning apparatus, having oxygen enrichment function; electric tuner units for wireless microphone systems; high frequency units consisting of electronic parts such as coaxial switch and relays; Radio frequency front end system units; Radio frequency modulators; coin validating units; coin selector units; bill validating units; bill selector units; speaker components; power modules; magnet rolls; DC/DC converters; inductors [electricity]; condensers [capacitors]; power capacitors; diode; transistor; filter of electric signals being electrical/electronic components, namely surface acoustic wave (SAW) filters and electromagnetic interference (EMI) filters; noise filter; light modulators; photo detectors; optical connectors; optical semiconductor elements; optical lenses; aspherical lenses; transformers; thermistors; varistors (surge absorbers); ceramic oscillators; Surface acoustic wave (SAW) oscillators; acousto-optic devices; electric resistors; potentiometers; trimmer potentiometers; thermal cut-offs; electric apparatus consisting of resistor array for interface circuits (resistance networks); electric apparatus consisting of capacitor array interface circuits (capacitance networks); electric apparatus consisting of resistor array and capacitor array for interface circuits (resistance/capacitance networks);

encoders; magnetic resistance elements; chip coils (electronic parts); choke coils; Electric current sensors in the form of coils; touch panels; remote controls; duplexers; Surface acoustic wave (SAW) devices; baluns (balanced to unbalanced transformer); electric power dividers; wireless communication modules/units; Radio frequency (RF) modules; phase locked loop (PLL) synthesizer modules; Bi-directional low-power wireless modules, including 1-watt second harmonic generation green laser unit; bead cores for electromagnetic interference filtering [electronic components]; Bead arrays for electromagnetic interference filtering [electronic components]; microchip fuses; relays, electric; solenoids; electric power supplying devices using inverters; Electric power supply units; inverters; inverters for power units; electric timers; high density wiring boards; printed wiring boards; circuit protectors; hinges for flip-type cellular phones; Negative ion generators; ionization apparatus, not for the treatment of air; magnetron oscillators; magnetron sputtering apparatus; Apparatus to eliminate static generated contamination during the manufacturing process; Internal cooling fans for electronic machines and apparatus; Internal cooling fans for telecommunication machines and apparatus; laser marking devices; electric laser markers; Ultrasonic detector for alert of animal approaching; luminous or mechanical road signs; portable electrical power supply units; direct current power supply units; uninterruptible electrical power supply units; computerized time clocks for use in factories; power line communication adapters; portable digital image magnification devices; temperature indicators for refrigerators; apparatus for measuring moisture content of the skin; microscopes; motorcycle helmets; bicycle helmets; robots for personal use, namely, robots for guiding and directing people within hospitals or other healthcare facilities, and software therefor, sold as a unit; robots for making purchases on behalf of persons within hospitals or other healthcare facilities, and software therefor, sold as a unit; robots for delivering and retrieving items within hospitals or other healthcare facilities; robots for personal use, namely, robots with built-in video monitors and capable of visiting family and friends for purposes of video interaction as well as visiting museums thereby allowing patients to view works of art; robots for personal use, namely, for use in hospitals, other healthcare facilities and the home, namely, robots with built-in video monitors and controlled remotely by healthcare providers and allowing for video conferences among doctors, other health care workers and their patients; robots for personal use, namely, for use in hospitals, other healthcare facilities and the home, namely, robots with built-in video monitors and allowing for video communication with family and friends; switch units integrated with nurse call button, outlets, lights, to be installed at the hospital room bedheads; three dimensional profilometers; CO₂ laser oscillators for soldering, jointing and processing; timers for use in factories; Electric temperature regulators; Electric interface terminals; image processing apparatus; Appearance testers for inspecting semiconductors; CO₂ incubators for laboratory use; cooled incubators for laboratory use; plant growth chambers for laboratory use; Biomedical clean benches for laboratory use;

biological safety cabinets for laboratory use for preventing biohazard.

Class 11: Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; lighting apparatus and installations; light emitting diode lamps; electrical light bulbs and lighting instruments; incandescent lamps; head lamps (head torches); fluorescent lighting fixtures; incandescent lighting instruments; miniature light bulbs; flashlights [torches]; hand-held emergency torch lights; electric lanterns; lamps for bicycles; motion sensitive security lights; discharge lamps; stage lighting apparatus; wall lights; outdoor lights for gardens and yards; ceiling lights; flood lights; electric lamps for repelling insects; germicidal lamps; Installations of lighting gates; Installations for lighting escape routes; Installations for lighting streets; chandeliers; glow switch lamps; downlights; glow switch starters; desk lights; sockets for electric lights; lanterns; spotlights; Installations for temporary emergency lighting; emergency lights; Installations for directional lights to prevent accidents; Outdoor lighting installations for indicating emergency situations; mercury vapour lamps; high-pressure mercury vapour lamps; sodium lamps; safety lamps; light diffusers; searchlights; cycle lights and light bulbs therefore; dynamo lights for bicycles; lamps for liquid crystal display (LCD) projectors; electric fans; neck flashlights; High intensity flash light; waterproof flashlights; emergency light installations for use in the home; emergency signal lamps; electric lights for walking in the dark; Clip-on lights; pen lights; radio flashlights; battery operated flashlight; flashlights whose body is made of rubber to prevent rain and shock; Flashlights with a flexible cable; installations for cooking; electric cooking utensils; microwave ovens; trim kits for microwave ovens; automatic bread making machines for household use/household purposes; electric kettles; electric thermal cooking pots; electric pressure cookers [autoclaves]; electric rice cookers; electric rice cookers and warmers; induction heating electronic rice cookers and warmers; electric roasters; ovens for cooking; toasters; electric sandwich toasters for household use; electric coffee makers; electric ice-cream making machines; electric cooking stoves; gas cookers; induction cookers; electric barbecue griddles for household purposes; electric cooking pans; sinks; Inset cooking top as part of kitchen installation; gas cooktops; water faucet metalware; electric rice cake makers for cooking; electric frying pans for cooking; Cooling installations for refrigeration and freezing; refrigerators; gas refrigerators; freezers; cold/hot water dispensers; electric water coolers; electric ice makers; electric refrigerators for cosmetics; electric cooler/warmers; refrigerating apparatus for storage of blood; ultra-low temperature freezers; medical freezers; pharmaceutical refrigerators; Refrigerated display cabinets; freezing display showcases; heat exchanger cooling units for cooling electric apparatus and instruments; ventilating apparatus and installations; electric fans; ventilating fans for household use; electric dehumidifiers; electric humidifiers; air curtains; air handling units; ceiling fans; Ventilating fans for industrial/commercial use; roof ventilators; electrostatic precipitators for cleaning air; electric

air deodorizers for cars; electric centrifugal fans for ventilation; electric axial flow fans; electric air purifiers; filters for air purifiers; range hoods for cookers; air outlets for air conditioners; apparatus for making and supplying oxygen enriched air; electric air deodorizers; air filtering installations; installations for heating, cooling and air-conditioning; air conditioners; air conditioners for automobiles; air filters for air conditioners; heat exchanger (not part of machines); electrically heated carpets; electric space heaters; electric blankets other than for medical purpose; electric radiant heaters; hot-water space heating apparatus; hot water floor heating apparatus; electric heating installations; electric foot warmers; electric under floor heaters; car seat heaters; positive temperature coefficient heaters; Stoves (heaters) using carbon lamps; electric water heaters; electric cooling and warming mats in the nature of heating and cooling inserts for pet beds; gas fired heaters; water heaters; gas water heaters; gas-fired water heaters; heat pump units; heat pump water heaters; solar water heaters; water treatment apparatus; water supply installations; watering installations, automatic; installations for sanitary purpose; toilets with self-cleaning functions; water purifying and mineralising apparatus for household use; Sauna bath installations; steam saunas; mist sauna; electrical foam makers for household use for body washing; Air dischargers to generate air bubbles (parts of machines); shower cubicles and rooms; Shower valves; slide bars for showers; shower stands; shower heads; water boilers for showers; instantaneous hot water boilers; Bathroom installations including bath tubs, bath panels, shower cubicles and sinks; bathtubs; bathtubs with air bubble generating/discharging devices; Bathroom units including mirror, door and counter; apparatus for foaming and injection of air bubble in bathtubs; whirlpool bath; toilet [water-closets]; toilet bowls; Ionizers; toilet stool units with a washing water squirter; bidets; portable toilets; portable bidets; wash-hand basins [parts of sanitary installations]; sterilization equipments for mattress and futon; water softening apparatus; replacement cartridges for water softening apparatus; water purifying apparatus; electric space heaters for bathrooms; clothes drying machines, electric, for household use; clothes drying machines, electric, for commercial/industrial use; clothes drying machines, electric, for household use; electric hand dryers; electric hair dryers; brushes being parts of hair dryers; electric hair dryers specifically for drying hair roots; dryers for pets; electric dish dryers; Industrial dish dryers drying machines; dish drying machines for household use; dry heat sterilizers [not for medical purposes]; Apparatus for drying/sterilizing futon (bedding); ventilation [air-conditioning] installations and apparatus for bathrooms; automatic watering installations for plants, gardens and lawns; electric make-up removing appliances; electric hair steamers; steam generators for facial treatment; electric pore cleansers; refillable cartridges for electric hair steamers (containing hair care cosmetics); Electric autoclaves, for laboratory use; facial saunas; Electronic facial steamers; Ultraviolet curing machines for coatings on circuit boards, aluminum condensers, moulded products, cases and films, medical equipment, motor vehicles; fabric steamers.

Any person may within two (2) months from the date of the first publication of this advertisement in the Intellectual Property Journal, file a notice of opposition in Form 3 at the Companies and Intellectual Property Office, of the opposition to the registration of the said trademark.

THE BANK OF NOVA SCOTIA of 44 KING STREET WEST, TORONTO, ONTARIO, M5H 1H1, CANADA has applied through their agent DUNCAN G. STOWE & Co., P. O. BOX 1786, 58 RIVER BANK, ROSEAU, COMMONWEALTH OF DOMINICA to the Companies and Intellectual Property Office for the registration of one Trade Mark consisting of the following word based on an application received on the 12th December, 2013

SOLACE

Class 36 that is to say: Insurance services; banking services; electronic funds transfer; credit and debit card services; foreign exchange services; mortgage services; financial leasing services; trust services; securities services, namely securities investment services and securities dealer services; real estate advisory and brokerage services; real estate development and property management services; electronic financial information management services; investment services, namely, brokerage, trading, dealing, consignment and buying/selling of commodities and currency.

Any person may within two (2) months from the date of the first publication of this advertisement in the Intellectual Property Journal, file a notice of opposition in Form 3 at the Companies and Intellectual Property Office, of the opposition to the registration of the said trademark.

ENVOY AIR INC. of 4333 AMON CARTER BLVD., FORT WORTH, TEXAS 76155 UNITED STATES OF AMERICA has applied through their agent DUNCAN G. STOWE & Co., P. O. BOX 1786, 58 RIVER BANK, ROSEAU, COMMONWEALTH OF DOMINICA to the Companies and Intellectual Property Office for the registration of one Trade Mark consisting of the following word based on an application received on the 30th April, 2015

ENVOY

Classes 37 & 39 that is to say:

Class 37: Repair and maintenance of aircraft, land vehicles, aircraft-related facilities, baggage-related facilities, and air travel-related facilities; refueling of aircraft and land vehicles; ground support services in the field of air transportation, namely, aircraft de-icing services, aircraft interior and exterior cleaning, and sanitation.

Class 39: Air transport of passengers, cargo, and freight; airport baggage checking; ground support services in the

field of transportation, namely, airport services, cargo handling, baggage handling, namely, marking, sorting, loading, unloading, transfer, and transit of passengers' luggage, providing information concerning baggage in transit and delivery, air travel passenger ticketing and check-in services, and airport ramp services.

The applicant claims convention priority based on an application number 86/164,145 dated January 13, 2014 in U.S.A.

Any person may within two (2) months from the date of the first publication of this advertisement in the Intellectual Property Journal, file a notice of opposition in Form 3 at the Companies and Intellectual Property Office, of the opposition to the registration of the said trademark.

HYUNDAI MOTOR COMPANY of 12, HEOLLEUNG-RO, SEOCHO-GU, SEOUL, REPUBLIC OF KOREA (SOUTH) has applied through their agent ALICK C. LAWRENCE, NANCY WHITICKER HOUSE, 7 OLD STREET, ROSEAU, COMMONWEALTH OF DOMINICA to the Companies and Intellectual Property Office for the registration of one Trade Mark consisting of the following device based on an application received on the 29th May, 2014

Class 12 that is to say: Automobiles; passenger cars; vans; light trucks; pickup trucks; motor buses; racing cars; refrigerated vehicles; sports cars; tractors for agricultural purposes; structural parts for automobiles, automobile bodies, automobile chassis, automobile chains, connecting rods for land vehicles other than parts of motors and engine, bumpers for automobiles, automobile hoods, brake pads for automobiles, air bags [safety devices for automobiles], sun-blinds adapted for automobiles, anti-dazzle devices for vehicles, axles for vehicles, clutches for land vehicles, windows for vehicles, vehicle wheel spokes, reduction gears for land vehicles, transmission shafts for land vehicles, crankcases for land vehicle components other than for engines, hoods for vehicles, trailers [vehicles], vehicle wheels, transmission chains for land vehicles, hubs for vehicle wheels, free-wheels for land vehicles, driving chains for land vehicles, steering wheels for vehicles, couplings for land vehicles, doors for vehicles, brake shoes for vehicles, gear boxes for land vehicles, brake linings for vehicles, horns for vehicles, brake discs for vehicles, vehicle suspension springs, seat covers for vehicles, safety belts for vehicle seats, safety seats for children for vehicles, luggage carriers for vehicles, luggage nets for vehicles, ski carriers for cars; shock absorbers for automobiles; brakes for vehicles; speed change gears for land vehicles; motors for land vehicles; automobile tires;
